Utah Division of Oil, Gas and Mining

RE: Water Monitoring Requirements Changes, Plateau Mining Corp., Willow Creek Mine, C/007/038-AM00L-1, Outgoing Files

Dear Daron,

Plateau Mining will be unable to meet the response time of June 29, 2001 to respond to the deficiencies in the water monitoring amendment for the Willow Creek Mine. Other issues have arisen which require our attention. We would appreciate an extension to July 27, 2001. Please respond with an approval or an alternate date for submittal of the response.

Sincerely yours,
Vicky Miller
Environmental Specialist
